

To whom it may concern at Upana Studio,

I'm writing this letter to show my interest in filling the Junior Project Manager Intern and Junior Frontend Web Intern position at Upana Studio.

I'm currently majoring in Information System in the third year, I think with my background that appropriate on this position.

At my time in Universitas Nahdlatul Ulama Surabaya, I have previously as IT manager in one course and until now I have managed 3 software development projects.

My skills are but not limited to project management, system analysis, and web development.

I think that my experience and skill in this field will make me an asset to your company.

I hope this letter finds you well and I'm looking forward to hearing from you soon.

Best Regards,

Ega Almira Sephrianti
