To whom it may concern at Waste4Change,

I'm writing this letter to show my interest in filling the ***Product Support Intern*** position at Waste4Change.

I'm currently majoring in Information System in the fourth year, I think with my background that appropiate on this position. At my time in Universitas Nahdlatul Ulama Surabaya, I have previously as IT manager in one course and until now I have managed 4 software development projects.

My skills are but not limited to project management, system analysis, basic programming, Ms. Office, and Gsuite. I think that my experience and skill in this field will make me an asset to your company.

I hope this letter finds you well and I'm looking forward to hearing from you soon.

Best Regards,

Ega Almira Sephrianti
